

Continuous Improvement Process Goal #4
Continue with the Writing Goal set in the Previous School Improvement Cycle

The School Improvement Committee has decided to continue working to maintain the district's high standard of writing set forth in the previous school improvement cycle. In order to involve all teachers at all levels and subject matter we have required each teacher to turn in reading/writing samples to Mrs. Vanness each quarter. Each teacher is required to submit one sample from each of the different classes taught during that quarter.

Also during this cycle teachers are encouraged to teach to the NDE's writing rubric throughout the year to help students prepare for statewide writing. Finally, all writing must be done through descriptive persuasion, utilizing the six traits in writing.
